CL POCKET

WHAT YOU NEED TO CONSIDER

THE PRODUCT SPECS:

Handy, light and built to last generations, the CL Pocket binocular is always ready to help you marvel at nature. This folding compact binocular has exceptional optical quality. The 10x25 has a large field of view (119m) with ten times the magnification – perfect for conveniently getting to the details on your safari.

Options include – 8x25 – 10x25

MAGNIFICATION:

The number in front of the 'X' specifies the magnification. Therefore if it says '8X' it means the binoculars has 8 times the magnification.

OBJECTIVE LENS DIAMETER:

This speaks to how much light is let into the binoculars. Important consideration for twilight hours. The number behind the 'X' specifies the object lens diameter. The higher the number, the more light is let in – an important consideration for game drive.

FIELD OF VIEW:

Describes how large the image is while looking through the binoculars. The larger the magnification, the smaller the image.

INCLUDES:

Field bag, carrying strap, eyepiece cover
