CL COMPANIONS

WHAT YOU NEED TO CONSIDER

THE PRODUCT SPECS:

As the name suggests, these binoculars make an excellent companion on every safari. Elegant, light and with impressive optics, the CL Companions are our perfect choice for more casual users. The 8X30 has a wide 132m (144yd) field of view, giving you an excellent opportunity to spot what's on the horizon, while bringing nature even closer!

Options include – 8x30 – 10x30

MAGNIFICATION:

The number in front of the 'X' specifies the magnification. Therefore if it says '8X' it means the binoculars has 8 times the magnification.

OBJECTIVE LENS DIAMETER:

This speaks to how much light is let into the binoculars. Important consideration for twilight hours. The number behind the 'X' specifies the object lens diameter. The higher the number, the more light is let in – an important consideration for game drive.

FIELD OF VIEW:

Describes how large the image is while looking through the binoculars. The larger the magnification, the smaller the image.

INCLUDES:

Field bag; carrying strap; eyepiece cover; objective lens cover and cleaning kit.
